

## School Council

At Marine Park Primary, we believe that the benefits of having a school council are far reaching. If you give young people the chance to make a difference, you'll see the difference in your school.

As part of the school council, students have opportunities to work with staff to share views and collaborate on projects. Students also have opportunities to develop essential communication and negotiation skills through decision making activities.

The School Council provides an opportunity to develop, demonstrate and further the students understanding of the fundamental British Values.
