About The Boulevard Centre Nursery

The nursery provides 32 places for children receiving the two year old entitlement during term time.

At the Boulevard Centre Nursery, we value and respect all children's individual needs and abilities.

Provision is adapted in the learning environment to promote opportunities for all children including those with special educational needs and disabilities to meet their full potential.

We follow the Early Years Foundation Stage guidance, specifically designed for children learning and development in the early years. We also aim to provide effective learning by observing how a child is learning and being clear about what we can do to promote child led learning.

We understand that parents are a child's first educators, and therefore we recognise the importance of working in partnership with families and supporting their religious and cultural beliefs.
