

## Sensory Fun

### Make some shadow puppets

Have fun making shadow animals with your hands.

<https://www.youtube.com/watch?v=Uv-MdaBfk&U>

You could even cut some shapes out of paper or card to make shadows with.

## Fine Motor skills

### Create a pouring station

This activity could be done inside (with the containers in a large box) or outside in the sunshine. It might get a bit messy!

- 1) Collect a variety of different containers, jars, water bottles, jugs – anything you have really.
- 2) Put water in the biggest containers and encourage your child to pour the water into different sized containers – how many can they fill?
- 3) You could even colour the water with food colouring or juice.

## Working Memory

How many differences can you spot?

If you can find more than 6 you are amazing!!

## Speech and Language

### Why is the girl happy?

She scored a goal

It is her birthday

She got stars on her homework

Tell someone in your house 5 things that make you happy.
