Here is my information text to help you.

Use this to help you write your own but **do not** copy it.

The second longest river in the world is the Amazon River and is around 6400 kilometres in length. It might not be the longest river yet it is the widest river in the world. Its widest point is 6 miles wide. How amazing that is! Its source is in the mountains of Peru. The Amazon River flows through the largest rainforest in the world until it meets the Atlantic Ocean.

Conclusion

There are so many facts to learn about rivers! There are three parts to each river. Each part has its own special features. There are many amazing rivers all over the world. If you want to learn more about rivers, you can do your own research.
