What is a Care Navigator and how can they help support my child and family?

The Care Navigator is a member of the Administrative team who supports the 0-19 Neighbourhood Clinicians in your area, this team includes: School Nurses, Health Visitors, Speech and Language Therapists, Assistant Practitioners and other Therapists that work within FYPC. They can support with:

- Helping you get the right services to support your child
- Signposting you to Local Support Networks
- Helping professionals share information more easily
- Provide information and help co-ordinate health appointments

Why do I need a Care Navigator?

A Care Navigator can help in co-ordinating your child's care better. They can also provide information around local support networks available in your area - not all families will need this support but it is available to those who require it.

Your information

To help your child, consent will be gained to share information between professionals and we may request further information from relevant agencies. This is so that we can make sure your child has the help they need and also help us work better together.

What sort of information is shared?

We share information such as:

- Your name, address and date of birth
- Who else is part of your family
- Which professionals are working with you and your family at the moment
- What other support you might need

Why do you want to share my information and how will it be used?

By working together we can give the right support to you and your family at the right time, in a coordinated way. By sharing information our professionals can work with you more effectively and identify the most appropriate professional as soon as possible. Only relevant information will be shared.

Neighbourhood Forum

A Neighbourhood Forum is a multi-agency discussion and can help ensure your child is getting the right support from the right professional at the right time. The Care Navigator will arrange this if appropriate for your child and relevant agencies will be invited to attend. Any outcomes from forum will be discussed with you.
