Dear Students

I hope you are all well and safe and enjoying the work that is being set for you for each subject on the Google Classrooms.

We are currently setting up all of your details on our system so we can be ready to go when we (hopefully) start back at the end of August. Data Collection forms have been sent out to your parents to gather the relevant information.

We are finalising our enrichment awards program and want to get this out to you next week. As part of your Program of Study you are expected to complete some enrichment which includes work experience. We will be sending out our enrichment booklet to you so you can have a look at what is on offer shortly and over the following weeks we will send you a google form so you can indicate the activities you are interested in. Our enrichment program expectation is that you complete, a minimum of, a Bronze, Blue and Red award, though many of you will achieve more than this. There are numerous activities you can get involved in and completing these activities will help develop some essential skills and boost your UCAS application and CV.

We are also in the process of setting up a virtual taster morning and information regarding this will be sent to you very shortly.

In the meantime if you have any questions or need any advice then please do not hesitate to contact the Post 16 Team via email [post16@brookvalegroby.com](mailto:post16@brookvalegroby.com) and we will assist you.

Take care and we look forward to welcoming you into our Post 16 family.
