

Brookvale Groby Learning Campus students are being treated to a fantastic online resource called PiXL Apps. The apps come to the campus as just one of the vast array of resources provided by the PiXL network to raise standards and to give students a better future and a brighter hope. The versatility of the apps allows its full use on all technology platforms and has proved a great tool to use whilst on the go - for example when travelling to school on the bus.

Embedded in the apps is a fantastic, dynamic, tracking chart visually and in full colour which highlights for students skills they have mastered and skills which need further work - students get a real sense of 'where they are at'. Some of the apps have daily challenges for students to complete and there are scoreboards for each year group. To add to the ease of using the apps, there is **only one set of login details** for each student for all of the apps, which your child has been given during tutor time.

These are the apps available with a link of how to download each one:

Times Table App - <https://timestable.pixl.org.uk/>

Allows students to practise their times tables with games and timed challenges.

Maths App - <https://mathsapp.pixl.org.uk/>

Allows students to focus on strengths and areas of weakness. The app assesses questions completed on the app and also assessments completed in lessons. 'Therapy' for topics and feed forward tasks are available as well as a 'daily challenge'.

History App - <https://historyapp.pixl.org.uk/>

Covering a wide range of GCSE History units and themes targeted at KS4 specific content. There are interactive activities for students to engage with and complete.

Geography App - <https://geographyapp.pixl.org.uk/>

Covering a wide range of GCSE Geography units and themes targeted at KS4 specific content. There are interactive activities for students to engage with and complete.

PiXL Unlock App - <https://vocab.pixl.org.uk/>

Aimed to develop student's vocabulary not only academically but also in a pastoral wider sense to help improve our students' life chances in the future. This is tailored specifically to each key stage.

English Literature App - <https://englishapp.pixl.org.uk/>

There is a greater need for students to know texts thoroughly and the PiXL Lit app helps with this. It includes Literature tests so students can select the ones they are studying. The activities have different levels to progress to.

Class teachers will give further information to your child during lessons of how to use the apps and which ones will be useful for them to use. We would be extremely grateful if you could assist your child in downloading and engaging with these apps. Subject areas will keep you updated through our newsletter of scoreboards/challenges run at the campus.

I hope your child enjoys using these apps and finds them to be another useful tool to aid their learning.
