

## Year 8 Support for Home Learning 2020-21

*These lessons have been put together largely using MyMaths, but also with the Oak National Academy. They are designed to be in line with the topics you would be doing if you were in school.*

*There is a school login for MyMaths; the username is 'brookvale' and the password is 'octagon'. You will need your own individual logins for your portal, which your teacher has access to. Please make sure you write these on the correct page in your planners so you don't lose them!*

*You can also use these activities to boost your learning from school. MyMaths has some fantastic booster packs which test your understanding of a variety of topics. Other websites such as CorbettMaths (which has a great 5-a-day activity and lots of useful videos), BBC Bitesize and mathsmadeeasy.co.uk are really useful to top up your learning and provide you with really good revision materials for tests.*

*If you find the work too easy or too hard, (or you are having difficulties completing these if you are learning from home), you must let your teacher know via email or the google classroom as soon as possible.*
