

WEDUC message/email sent 12/10/21 to Yr7, 8, 9 & 10 plus 12 & 13 Students

Dear Parent/Carer

This week we are distributing more COVID tests to students via tutor groups. If your child /ren have been absent and miss collecting tests, please ask them to come to reception when they are next in and we will supply them with a pack.

We ask that you continue to support and encourage your children to test twice a week at home, every week, with Lateral Flow Device (LFD) tests. This will help us reduce the transmission of COVID-19 among our children.

Please report and upload test results to us at school [COVID Test Results - Student Home Testing](#) and [online](#) to the government website, even if they are negative or void.

The government advice remains the same, in addition to regular twice weekly testing:

- Children who receive a positive LFD result should isolate and book a PCR test to confirm their result.
- Children who are identified as a close contact by NHS Test and Trace should take a PCR test and continue to go to school while they wait for their result.

The tests your child/ren receive this week are **nasal swabbing only** and are different to any tests we have previously supplied.

Please ensure you and/or your child reads the instructions carefully as they are also different, a printed copy is included with each pack.

[Lateral Flow Testing Instructions - Nasal Only](#)

Kind regards

Brookvale Groby Learning Campus
