Mock exams will be run over the 2-week period stated. Your attendance and performance in mock exams is extremely important. Results are used to assess current grades and may be used to support UCAS predictions. They will allow us to monitor progress, ensuring the correct interventions and support are in place. As with any examinations, we expect students to treat these mocks as the real exams and revise thoroughly, have all the correct equipment with them and arrive at the exam location promptly to start the exam.

Your subject teachers will give you any information you may need before your mock exam and we have some links to some videos on revision that may be useful to you.
