

IMPORTANT INFORMATION:HEALTH AND SAFETY IN ADT LESSONS

We take health and safety very seriously at Brookvale Groby Learning Campus.

We risk assess all our activities to minimise the risk of accident and injury within the classroom and workshop.

It is crucial that your child listens carefully, pays attention in demonstrations, is sensible with equipment and follows classroom rules.

As a department, we reserve the right to withdraw your child from practical work if he/she knowingly behaves in a way that endangers their own safety or that of others.

Make sure your child is prepared for each lesson with a full set of equipment and coloured pencils.

Please help us to minimise risk by taking the following precautions at home:

- Ensure your child does not have to carry large glass bowls for Food Technology lessons unless they are needed for a specific lesson (such as lasagne), as these can easily break and cause an accident.
- Inform us of any allergies, such as food or chemicals or art materials.
- Make sure all high risk foods are refrigerated as soon as you receive them.
- Do not allow art, ceramics, textile or resistant material products to be put near fire or water.
- Products made in Art, Design and Technology may have small components with sharp edges and should not therefore be handled by small children.

Thank you in anticipation of your support.

If you have any concerns, please do not hesitate to contact us or a member of the ADT team.

~~~~~  
Please note:

Parents/carers are asked to sign to agree to the following, as as part of a section on the admission form

- I allow my child to taste food in school (Any allergies should be advised during payment)
- I allow my child to use tools and machinery in ADT.
- I have read and understand the health and safety information.
