

Year 11 TAG Assessment Schedule - Spring 2022, Exam success evening and Advanced information from the exam boards

The Government is still very committed to external exams taking place for students in the Summer.

They have, however, asked schools to collect assessment data which could be used to determine Teacher Assessed Grades (TAGs) in the event that exams have to be cancelled.

If exams are cancelled this will be done nationally. We will use the data collected from the mocks done before Christmas, the planned assessments outlined in the schedule below and further Summer term assessments.

If, as we expect, exams go ahead in the summer this data will not be used as any part of the grade awarding process for any student.

As we are not expecting exams to be cancelled we have tried to plan smaller assessments to reduce the amount of lost learning time during this term.

There will be no formal resits timetabled for any of these assessments.

Exam Success Evening

To help students get ready for the Summer exams we are running an Exam Success Evening on Thurs 3 February. At this evening you will be able to find out about how best to support your child to prepare for examinations. You have already received information about this evening.

Advanced Notice from exam boards

On 7th February teachers will be getting further information (e.g. advanced notice of topics) about the Summer exams. This information will be different for every subject. As soon as we receive this, teachers will be using it to help inform their revision programmes. This information may also inform these assessments and therefore students may be given more information from their teachers to help them focus their preparation.
