<b>Year 11</b>	<ul style="list-style-type: none"><li>● During form time this half term, the focus has switched to ensuring students are preparing effectively for the summer exam period. We have been drawing inspiration from the PIXL Prepare to Perform initiative as students make their own revision pledge each week; a small change they will implement to make study gains.  This week, we have looked at creating an effective environment for revision at home. <a href="#">Take a look at the link provided</a> for an insight and hopefully it can help you to support your children at home as the exam period draws closer.</li><li>● <b>Year 11 Prom</b> - a reminder that tickets are now available on Arbor School Shop <a href="#">click here</a> for information.</li><li>● Well done on getting through your last set of mocks! In Maths now, your focus now needs to be on completing the past papers you get for homework, identifying your areas of development and targeting your Hegarty work to tackle these issues.  In class, we will be looking at topics that have proved challenging for the whole class as well so we are all working towards the same goal of getting you ready for May 19th and your first paper!  Extra revision resources will be put on the Year 11 Google Classroom all in the lead up to the exams so keep checking in to see if it is useful for you.  Keep smashing it, Mr Kilduff</li></ul>
