	<ul style="list-style-type: none">• During form time this half term, the focus has switched to ensuring students are preparing effectively for the summer exam period. We have been drawing inspiration from the PIXL Prepare to Perform initiative as students make their own revision pledge each week; a small change they will implement to make study gains. This week, we have focused on the structure of revision and use of one specific resource that all students have been given: Diagnose-Therapy-Test strategy. Take a look at the link provided for an insight and hopefully it can help you to support your children at home as the exam period draws closer.• Please see the latest Maths Newsletter with important information in the lead up to examinations - Maths Newsletter• Year 11 Prom - tickets are currently still available on Arbor School Shop click here for information.
