

Politics

Curriculum Intent

Key Stage 5

We have chosen our A Level course to engage student's interest, help them understand the world around them and give them the tools to be politically active. The fascinating course weaves together British Politics and key ideas, then moves on to US politics and comparisons with the UK. The department is experienced in helping students of different abilities access and enjoy the course as well as supporting them in written work. Our course allows us to dive deep into the debates and issues; as well as to rise above them, to discuss principles and ideas. We have many students going on to study Politics, and related subjects, at university and this course provides them with a sound basis to do so.
