Year 11 Science Intervention

Dear Parent/Carer

As part of our Science strategy to ensure that students secure the highest grades, all of Year 11 students completed Science progress examinations at the beginning of September. All of the Science papers were analysed and key areas for development have been identified. Your son / daughter has been identified from this as requiring intervention to help them to improve their Science grade in future examinations. Intervention work is given to the students each week on a Thursday or Friday for them to complete. They are required to bring the completed work to B11 on Thursday or Friday lunchtime for it to be marked. If they fail to attend they will be issued with a Science department detention in order to complete the work.

Thank you in advance for your support with this.

Yours faithfully

Mr A Scott
