### **Provision of PE and Sport**

- BFPS believe that Physical Education plays a vital role in contributing to a child's physical and emotional development and well-being. We believe that PE lessons at our school provide a platform to encourage and motivate our children in extracurricular sporting participation.
- As a school, we aim to provide as many sporting opportunities as possible for all of our pupils, both within the curriculum and outside of it, as well as competitive opportunities.
  - Physical movement of any kind is fundamental in allowing our pupils to grow into healthy and active children.
- Currently we offer a wide range of sports clubs across the school including football, basketball, dodgeball, multi-sports, rounders, athletics, cricket and badminton.
- This funding will enable the school to build on the quality of our PE and sports provision throughout the school. It will also allow us to effectively increase the amount of extra-curricular sport and activity.

### **Our vision for PE and sport**

As a school we will:

- Develop a sustainable and coherent sports programme throughout the whole school.
  - Offer a broad and balanced PE programme which is accessible to all.

- Ensure that all groups of pupils are inspired by what we offer and participate in both individual and team activities.
  - Increase our frequency and quality of sporting activities and build on what we already offer.
