

# REDMOOR ACADEMY: GEOGRAPHY CURRICULUM JOURNEY

Redmoor Geographers understand the important interrelationships that exist throughout our natural and human world. They possess the knowledge, skills and understanding to make sense of their world and to face the challenges that will shape our societies and environments on a local, national and international scale, creating responsible global citizens.

Our students share a desire for the knowledge, skills and values needed to engage with the world around them and have a belief that they can make a difference.
