

REDMOOR ACADEMY: Computer Science CURRICULUM JOURNEY

A graduate of the Redmoor Computer Science curriculum can study, create and maintain computer systems to solve real-world problems. In order to do this they will master a problem solving and computational thinking mindset and have a good understanding of hardware and software.

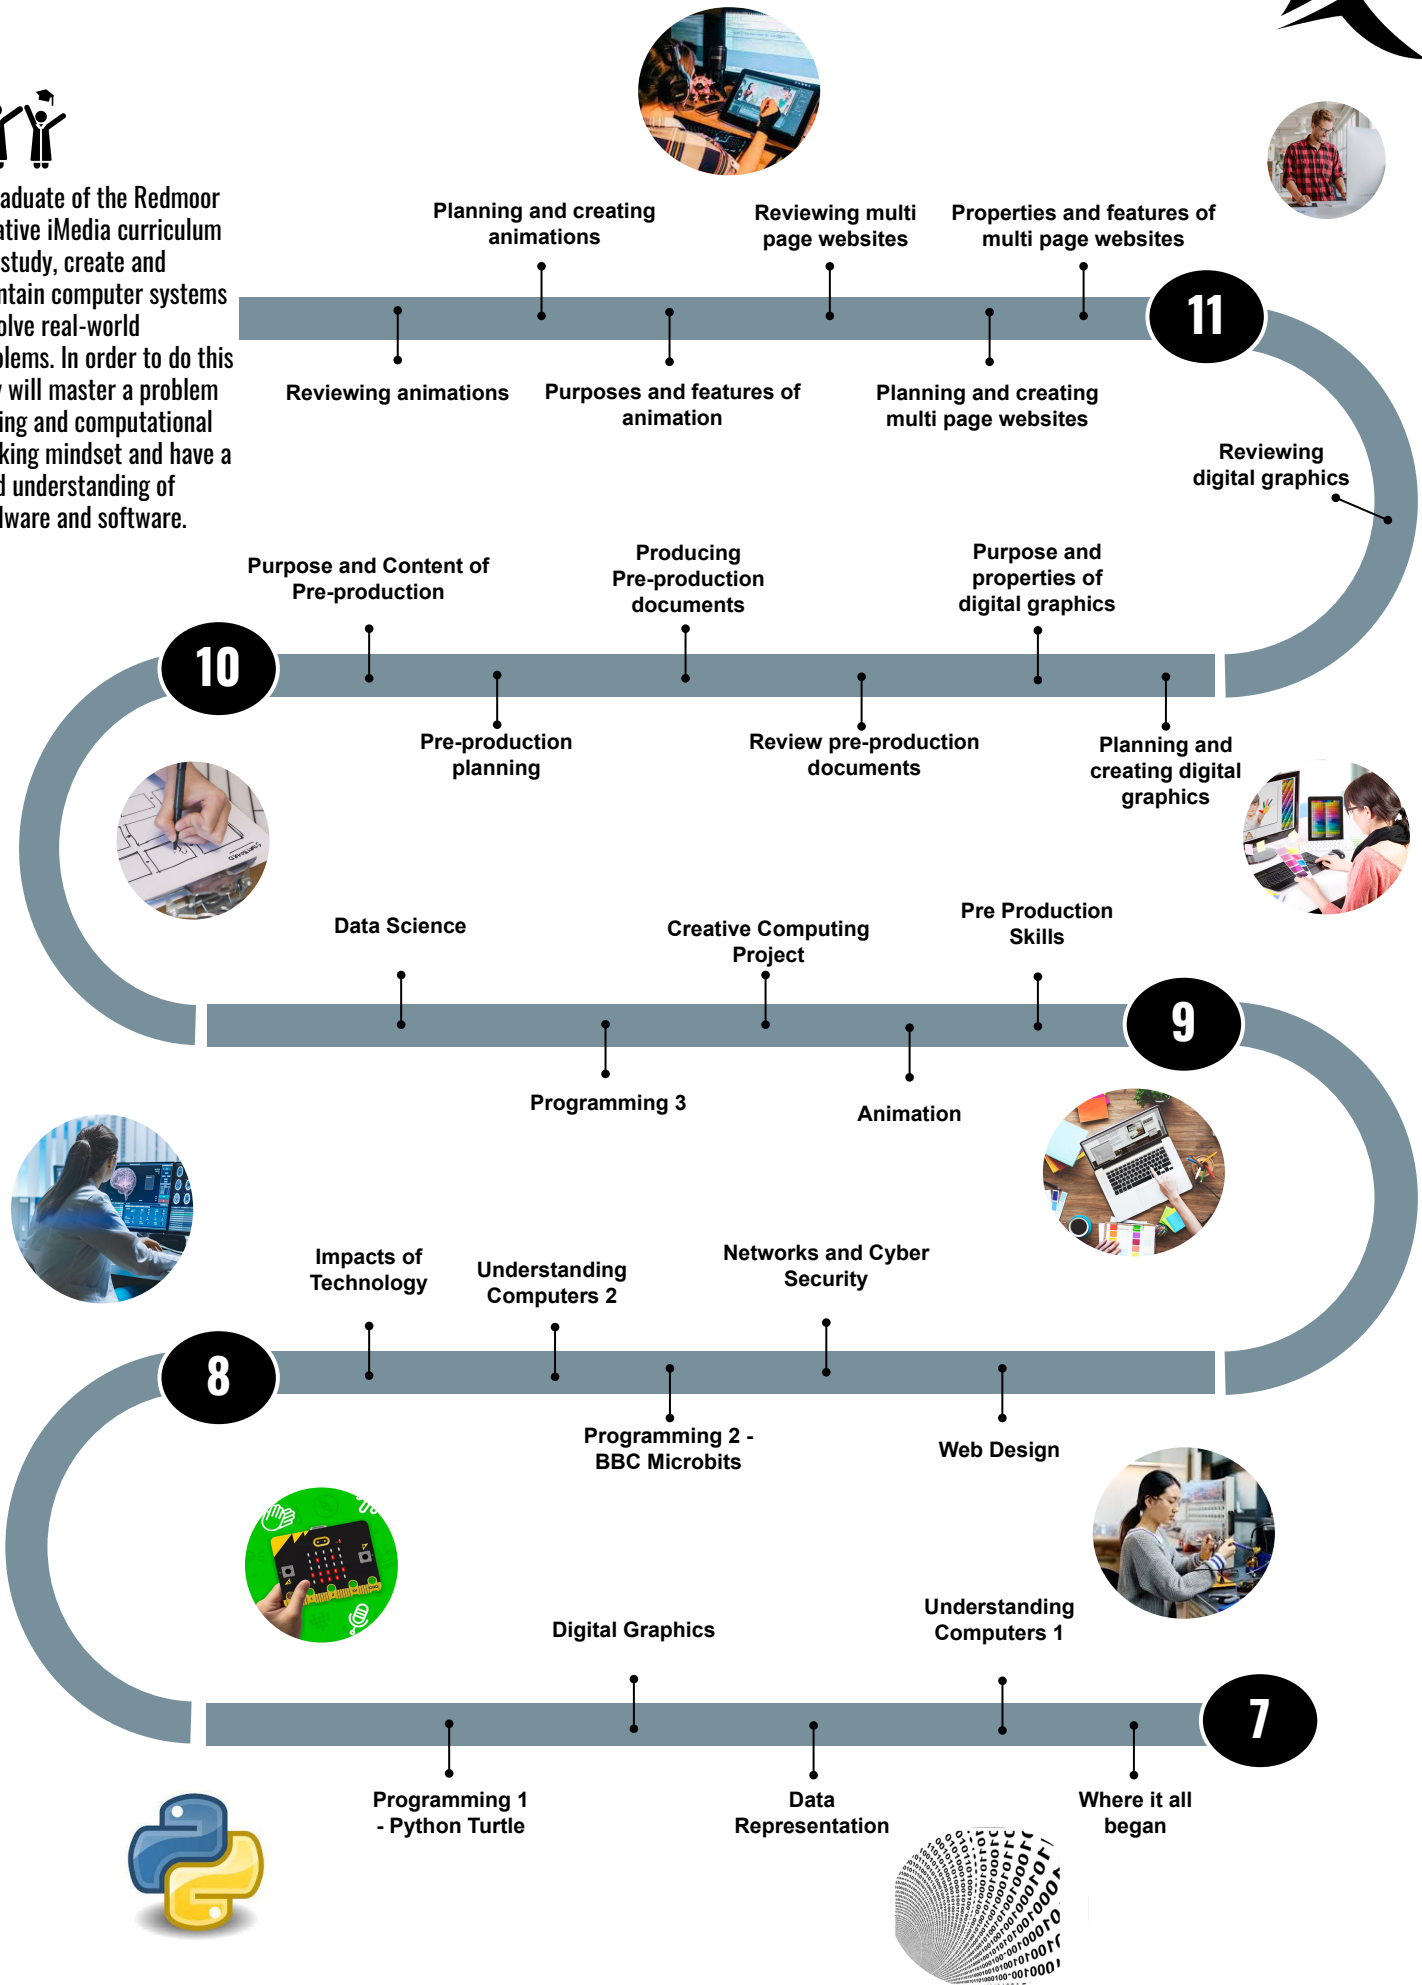

Our students study, create and maintain computer systems to solve real-world problems

REDMOOR ACADEMY: Creative iMedia CURRICULUM JOURNEY

A graduate of the Redmoor Creative iMedia curriculum can study, create and maintain computer systems to solve real-world problems. In order to do this they will master a problem solving and computational thinking mindset and have a good understanding of hardware and software.
