

Carr Hill School

Key Instant Recall Facts Journey

Year 6 – Autumn 1

By the end of this half term, children should know the following facts. The aim is for them to recall these facts with **speed** and **accuracy**:

Count in powers of 10, forwards and backwards, to 10 million

Multiply the number represented by 10, 100 and 1000.

Tens	Ones	Tenths	Hundredths	Thousandths
	● ●	● ● ●		● ● ● ● ●

Key Vocabulary

integer nearest closest multiple
place value column
___ rounded to the nearest ___ is ___
The previous multiple of ___ is ___.
The next multiple of ___ is ___.

Top tips

The secret to success is practising little and often. Use time wisely. Can you practise this KIRF whilst walking to school or during a car journey? You do not need to practise all aspects of the KIRF all at once; perhaps you could have a fact of the day, or a few facts per week to practise? If you would like more ideas, please speak to your child's teacher.

Practical ideas and resources

- Write any number up to 10,000,000. On a blank number line, write the two nearest multiples a number to round to the nearest million, 100,000, 10,000, 1,000, 100, 10 or whole number.
- Represent a number on a place value grid. Ask "What is number is rounded to the nearest ___?"

HTh	TTh	Th	H	T	O

Carr Hill School

Key Instant Recall Facts Journey

Year 6 – Autumn 2

By the end of this half term, children should know the following facts. The aim is for them to recall these facts with **speed** and **accuracy**:

Identify common factors of a pair of numbers

Find the common factors of each pair of numbers

24 and 36

20 and 30

28 and 45

Key Vocabulary

common factors multiples order

_____ is a factor of all numbers.

The largest factor of a number is always _____

_____ is a common factor because _____

Top tips

The secret to success is practising little and often. Use time wisely. Can you practise this KIRF whilst walking to school or during a car journey? You do not need to practise all aspects of the KIRF all at once; perhaps you could have a fact of the day, or a few facts per week to practise? If you would like more ideas, please speak to your child's teacher.

Practical ideas and resources

- Ask your teacher for a multiplication grid.
- Use the following numbers when to help identify common factors:
15 and 30 24 and 40 15 and 50 24 and 72
- Draw a Venn Diagram (two overlapping circles) to sort the factors and common factors.
- Use two plates and sort factors onto the plates:

Carr Hill School

Key Instant Recall Facts Journey

Year 6 – Spring 1

By the end of this half term, children should know the following facts. The aim is for them to recall these facts with **speed** and **accuracy**:

Find fractions of an amount

Work out the fractions of the amounts.

$$\frac{1}{5} \text{ of } 20$$

$$\frac{1}{4} \text{ of } 40$$

$$\frac{1}{5} \text{ of } 30$$

$$\frac{1}{10} \text{ of } \text{£}20$$

$$\frac{1}{8} \text{ of } 40 \text{ m}$$

$$\frac{1}{10} \text{ of } 90 \text{ g}$$

A football team has 300 tickets to give away. They give $\frac{3}{4}$ of them to a local school. How many tickets are left?

Use the bar model to find the missing numbers.

$\frac{1}{8}$ of 160 = _____ $\frac{5}{8}$ of 160 = _____ _____ of 160 = 60

Key Vocabulary

numerator denominator equivalent fraction whole parts divide amount number of parts

The whole is divided into equal parts. Each part is worth

The numerator is __, so the fraction is worth _

If one fifth is equal to __, then __ fifths are equal to
