

Impact of the Crawley Green Primary School Curriculum

Computing

By the end of Key Stage 1, all pupils will:

- ★ Have used computer software to create digital work for a purpose (eg. advertise a product).
- ★ Use word processing software to publish a piece of their own writing.
- ★ Use a search engine effectively to find out information.
- ★ Be confident internet users, showing awareness of dangers online and be able to articulate what to do if they come across something potentially harmful.
- ★ Use basic computer programming language to create algorithms and be able to identify and debug a problem.
- ★ Produce and present information using presentation software.

Developing cultural capital in computing:

- ★ Pupils will use a range of technology such as tablets, computers, robots for different purposes in real life situations.
- ★ Use technology in a cross curricular way ie. to look at maps in Geography.
- ★ Use of technology will be woven into all areas of the curriculum to support learning.
