- Be able to make a video resource for a lesson
- Be able to use simple video editing software in Windows 10
- Understand E Safety issues around video
- Appreciate add ons and extensions for making video resources

ICT in Schools Team

Google Forms Intro

Google Forms is part of G Suite for Education and will help you work smarter. It's easy to use and one of the simplest ways to make resources, surveys, tests and quizzes. It even collects the answers or responses straight into a spreadsheet so you get instant results as they come in. You can summarise results at a glance with charts and graphs.

Find out how to:
- Create and analyse surveys in your mobile or web browser
- Set up quizzes for your students
- Assess topics with minimum fuss
- Use Google Forms to set and assess remote learning tasks

Who is this course for?
Anyone with a basic understanding of google apps.

When:

Monday 11th January 2021	2 - 3pm or 4 - 5pm
Tuesday 12th January 2021	10 - 11am

Expected impact on schools - Participants will:
- Be able to use Google Forms confidently as part of your Google Classroom or as one-off lesson activities.

## Marking and Feedback With Google Classroom

Google Classroom is an excellent way to develop and set online learning materials for pupils. This workshop will show you how to use the marking aspects of Google Classroom and how to give personalised feedback to your pupils.

You will understand how to create marking schemes and rubrics along with giving personalised feedback. We will also see how some add-ons can make your feedback even better.

Find out how to:
- Mark pupils work in Google Classroom.
- Learn how to give feedback in Google Classroom.
- Discover how add-ons can be used to personalise feedback.

Who is this course for?
People who are confident in their use of google forms and classroom.

When:

Wednesday 13th January 2021	4 - 5pm
Thursday 14th January 2021	10 - 11am
Tuesday 19th January 2021	2 - 3pm

Expected impact on schools - Participants will:
- Be able to assess set work and give feedback via Google Classroom.
- Be able to use assessment data effectively when using Google Classroom for remote learning.
