Careers Guidance	<p>Geography equips students with a range of skills which are highly prized and sought after by a variety of employers. These skills are essential to everyday life in the workplace.</p> <p>Geography can be used as a foundation to progress into either science or arts-based courses at university with many students opting to do either a BSc or a BA degree course in the subject.</p> <p>The range of career destinations is only limited by ambition. Geographers are highly regarded by employers owing to their broad knowledge of a variety of local, national and global issues combined with their analytical, presentation and communication skills.</p> <p>Careers in health, education, finance, the media, business, armed forces, environment, industry, travel, commerce and the public sector have all been pursued by geographers.</p>
