GCSE Revision Lessons
& Warm-Up Sessions
(5th June - 21st June)

Important Information

This booklet has two sections. The first section provides you with an overview of the programme of revision lessons and warm-up sessions taking place after the half-term break. This includes information about dates, times and subjects. It should be noted that most revision lessons in Maths, English and Science are for specific bands or specific classes within a subject area, such as M Band or S3. The second section of the booklet contains more detailed information about each session, including the designated room, the teaching group and the member of staff who will be delivering the session.

Please take the time to read the information below. Following these instructions will ensure that the programme of revision lessons and warm-up sessions runs smoothly. It will also enable each student to take full advantage of the support being offered.

1. It is vital that you attend all the revision lessons and warm-up sessions relevant to you. This will give you the best possible chance of maximising your achievement.
2. When you do not have a revision lesson or warm-up session, you are not required to be in school and can continue your revision at home.
3. You need to wear full uniform at all times when attending school.
4. Please read the information concerning times and classrooms very carefully. It is important that you come to school at the right time and go to the right room straight away. Many of the sessions will be taking place in areas of the school where you would not normally have a particular subject.
5. For warm-up sessions, which start at 8.45am or 12.45, please ensure that you arrive at school well in advance of the starting time and make your way to the relevant classroom at the appropriate time.
6. For revision sessions, which take place during specific lesson periods in the school day, make sure that you arrive in school between 5 and 10 minutes before the start. You should stay in the atrium area until the bell goes, rather than going straight to the relevant classroom and waiting outside. Once the bell sounds, make your way to the lesson.

Finally, we wish you every success in your examinations.

Note: There are two occasions when students will be sitting an exam at the same time that a revision session is taking place in another subject area. This affects students of Russian on Monday 12th June and students of Catering on Tuesday 13th June. There will be an extra Chemistry session after school for students of Russian and an extra Maths session after school for students of Catering on these particular days.
