Dear Parent or Carer,

Re: GCSE Science Revision Guides

Your son or daughter's separate Science examinations are scheduled for summer 2019. In order for them to be fully prepared for these examinations, it is strongly recommended that they make use of the revision guides, the examination practice books and the revision cards produced by CGP.

Students will find the revision guides very useful in helping them to understand key scientific concepts. Students can use the examination practice books to answer questions similar to the questions found in the GCSE assessments. Students can use the revision cards to test their own subject knowledge. Each resource is produced separately for the Biology, Chemistry and Physics courses.

If you would like to purchase any of these resources through the school, which is available at a lower price than the RRP, please fill in and return the reply slip below to your science teacher before **Friday 11th January 2019**. Payment should be made at reception. Your child will then be issued with a receipt, which can then be passed on to the Science Department.

If you have any queries regarding this matter, please do not hesitate to contact me.
Many thanks for your continued support.

Yours faithfully,

Mr J Turnbull
Head of Science
