Department

Work for Temporary School Closure

Year 12 Further Maths

In the event of a temporary school closure, please log in to your Office 365 account to complete the appropriate work set by your class teacher.

BEFORE EASTER AND THE EASTER BREAK

If, at any time, you are unable to access this system, you should complete all the Integral Maths on-line tests for OCR AS Pure Maths and AS Additional Pure Maths. In addition, use your notes to complete the booklet of exam questions and past paper provided.

Remember – the most effective way to learn and remember maths is to **DO maths**.

Once you have completed this work, you should spend time working on past papers from other exam boards, as well as the following website to support your understanding:

<https://crashmaths.com>
