

Year 9 Project

christian values

By the time the work is due in, you should have completed a comprehensive booklet on the following areas

- Different types of love
- Vocation
- Marriage, including symbolism and importance of vows
- Christian attitudes to sex outside marriage, including pregnancy and HIV/AIDS
- Causes of marriage breakdown, and Christian responses to this
- Muslim teachings on marriage

What should be included in each section will be based on the work from lessons. You are welcome to take your work home, but must not forget to bring it back. If the work becomes missing from your folder you will be responsible for re-writing it after school

You are to use your imagination on how you set your work out, display and present your work. The intention of this project will be a lesson in managing your time and working towards deadlines. You would normally be issued one piece of homework a week from your RE lesson, so this task is to take the place of that.

You are of course allowed to research the topic yourself, but please keep a record of your references to add a bibliography onto your work as the final page.

The work may be hand produced or created on a computer.
