

St Mary's Mathematics

Department

Work for Temporary School Closure

In the event of a temporary school closure, please log in to your Office 365 account to complete the appropriate work set by your class teacher.

If you are unable to access this system, continue to log onto your Hegarty Maths Account and complete the tasks set by your class teacher.

You should make notes clearly in your exercise book (or paper if you don't have your book) whilst watching the video, then complete the quiz.

Remember to use the comments facility if you need to ask your teacher any questions about the work.

If you require further support in your understanding, remember that the following websites are also available to use (which also have additional practice questions for you to work through if needed):

<https://corbettmaths.com/>

<https://online.justmaths.co.uk/>
