9.1 F ¿Cómo ser un buen estudiante?

**Talking to yourself for practice**

You won't always have a partner to work with, so when revising or preparing for speaking tasks, get used to talking to yourself for practice. This helps you get used to speaking and can boost your confidence.

**1 Look at the following four topics related to your studies. Write a paragraph in Spanish for each topic, using the prompts to help you. Make something up if you need to. Practise until you can confidently say aloud the things that you have written.**

1 Your subjects

- the subjects you study
- your favourite subject and why you like it so much
- your least favourite subject and why you don't like it

2 Homework

- how much homework you get
- the sorts of things you have to do for homework
- what you think of homework and why
