Speaking worksheet 10.1 F Las reglas y el uniforme

2 Working with a partner, using two dice and two different coloured pens, follow the instructions in the box.

In pairs, take it in turns to throw 2 dice, one at a time. The first dice gives you the number across and the second dice tells you the number going down. Find the square that is at the coordinates of both the numbers. Say *En mi instituto...* and then the Spanish for the words in that square. Choose between *hay que* + infinitive, (no) *se debe* + infinitive or *tenemos que* + infinitive.

Your partner will look at the answers to tell you if you are right and, if so, you can claim the square by crossing it with your coloured pen. The player with the most squares at the end of the game wins.

Example: 1,1 *En mi instituto hay que / se debe / tenemos que llevar una chaqueta azul.*
