

# Assignment Plan — Health Services

Produce a report detailing the **different services** and **practitioners** that are available to support individuals with each of the named conditions. You must include a **description** of how different practitioners/services can **work together** to meet the needs of someone with that specific condition.

Make notes below and then write this assignment on the computer for your teacher to check.

## Arthritis

Services and practitioners that can help:

.....

.....

.....

.....

.....

.....
