

## The Friday Letter

Dear Parents/Carers,

One of the great pleasures of working in a school is having the opportunity to praise and reward our students for the many wonderful things that they do. This week, Mr Matthews who is responsible for rewards across the school has organised and led a series of special awards assemblies to congratulate pupils for a variety of different reasons.

In particular I would like to praise the students who have received the outstanding student of the year awards and the pupils who have made outstanding progress. It's true that some people in life can achieve quite well without having to work that hard. They have a natural ability to achieve well. However, many of our pupils work exceptionally hard and as a result they make fantastic progress achieving grades much higher than expected. That is what really impresses me!

As a school, the progress that our pupils make is really impressive. For example, we are in the top 14% of school in the country for the progress that pupils make in English which is significantly higher than the national average.

We whole-heartedly celebrate the progress that our pupils make as you can see from the vast list of names who received an award this week. Well done to you all and keep it up. If you try your best – no one can ask for more!

# College Experience

On Wednesday Mrs Meersand and Miss Short took 25 year 11 pupils to James Watt College to try different college courses and get a 'feel' for college life. They tried courses such as Plumbing, Gaming, Hair and Beauty, Electrical and Motor Bike maintenance and Repair. It was wonderful to see the pupils engaged and passionate about these practical subjects. They were an excellent representation of Cardinal Wiseman School and were able to gain valuable insight into potential careers.
