

The amazing Alton Castle

BY Justin

Awesome activities

Biking

I did biking; it was great, but some people could not ride a bike up and down hills so they did an obstacle course. We had to ride up a slippery hill and all of us slipped ... even the teachers! It was funny, we all laughed hysterically!

Camping

We had to sleep in the freezing cold but it was fun. We lit a fire! Therefore, we were warm and we had to make our own tent out of long wood, rope and a blanket for the roof. Inside, we had warm blankets, comfortable pillows and a torch. It was amazing!

Mud walk

It was muddy! We all had to climb a tall mountain and some of us fell Not me though! When we got to the top we had lunch; I had a cheese sandwich and a banana and it was yummy! Climbing down was hard; we all fell down at that point.

Sleeping away from home

We had a room with three people. I was with Halton and Liam. The girls and boys rooms are on different floors so do not worry about that. Moreover, there is always a teacher in their room at night and free time and you allowed your phone at free time but not at night or activities.
