

FORTNITE TAKES THE WORLD BY STORM by Musadeq

SCHOOL REPORT

What is fortnite?

Fortnite is a game that is played by 3 million+ players in the world. You start by jumping out of a bus to one of the places on the map. Here it is:

After jumping out you will have to loot places, for weapons. The best ones are hard to find, such as the scar or assault rifle but beware there is a storm coming after you and you need to run away from it and if it gets you, then you better start running away and not die also battle for victory.

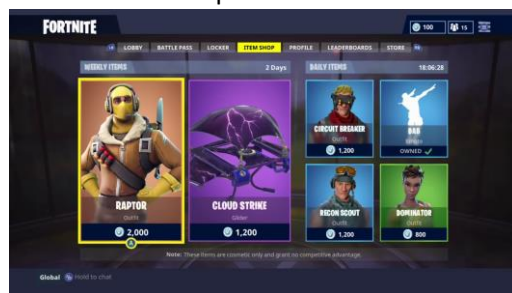

What else is in the game?

In the game you can buy V-Bucks (the currency) and with them you can buy skins or the battle pass, which if you buy it you can get multiple things, than the normal one and you can get better things as well such as the, rust lord the best mates dance and more.

Here are the skins you get:

You can also buy dances like electron shuffle and you can buy the skins from a 24-hour item shop.

The item shop is available all day but after 24 hours, it will reset, but if you are lucky, the item will come back again at another time.

What game modes are there?

There are two main game modes, which are 100 Player v Player and save the world.

Save the world is where you save the world and the people living in it but there are zombies after you and the people so you have to shoot them to death.

The game is one of the most popular games in the world and is fun to play with friends, but it may be difficult.

In the battle royale, you can get limited time game modes such as 50 vs 50 and 20 vs 20 and the game will update every Thursday because the game is getting better.
