## SCHOOL REPORT

### Symphony Hall

Why was it fun?

It was fun because when I start music, it will help me with my Music skills! When it comes to Orchestra music I will know a lot about it because of the music been performed at Symphony Hall.

Who went?

Most of Year 7 went to Symphony Hall! I think all of them thought it was very fun just like, I did and for £5 it was worthwhile going!

Where was it?

It was in town and many schools went to see this fantastic music...but it was also very confusing because different instruments were coming out at different times. However, the rhythm of the music it was very relaxing!

When was it?

It was on the 5<sup>th</sup> of February 2018

What was it?

This is a place where music it performed, some good music (Orchestra music)

### Birmingham Museum

Birmingham museum was good for our education because if we did not, know a piece of information then, then we can go have a look and see if the museum has it!

What I like was that the different artifacts everywhere and specific facts about what the thing is or diagram shows.

In addition; just to have some free, time to talk to our friends whilst looking at the artifacts, and some of my friends were taking notes and using their brain for future lessons!

This may help them if they are learning about something they saw at the museum, they have their notes to tell the rest of the class, and there is something learnt!

### Other Things to do in Brum

The **Sealife Centre** is where fish live, and are, put on display. Also, there is something like a Cinema but near there end you get sprayed with water and it is 3D.

I think it'd be somewhere nice to go because you can venture more into learning about fish and Sealife.

I would go there again because it is cool to go and see new fish been added to the Sealife centre!

It is educational because any subject that is, related to the Sealife then you can go to the Sealife centre and learn more about it. Provides you with specific information, and have some facts you may not have known!

My favourite display was when you first walk in there is a big glass cage with lots of fish in it and it is also very colour so that what brightens the mood.
