

# Cardinal Wiseman P.E. Pupil Council

**Who are we?** We are school prefects with a passion for P.E. selected by the P.E. department to represent the pupils within the P.E Department. We have been selected from different year groups and consist of different genders and backgrounds.

**Our intent** as a PE council is to encourage people to become active and see physical activity as a way to become healthy and have a good time. A way to do this is to we use the PE council as a way to communicate ideas and make the subject a more enjoyable place for all.

**Our Vision** -We will use the PE council to create an environment that helps to encourage the nervous people who may not want to do Pe and we will make sure that they feel comfortable and able to participate in any activity. As a group made up of many different pupils there will be many different ways in to which we can make Physical Education more enjoyable for anyone of any ability or ability level. This also creates a diverse approach to any different problems that may arise.

If you would like to message the School Council you can email them at
