

# Year 11: Top performing forms

The % represents the average of an individual students' progress through their Unifrog tasks.

If a student reaches 100% they've really taken advantage of everything Unifrog has to offer. Most students don't need to do everything in order to be well prepared for their next step after school; 40-50% is a good score for an older student, and 60-80% is good for a younger student.

# Individual shout-outs

A huge well done to these pupils who have already added 6 or more activities for themselves onto Unifrog. *Activities are what you use to add anything you have done both inside and outside of school which relate to careers and the acquisition of new knowledge or skills.*

When applying for post-16 courses or jobs you will be asked to provide specific examples of when you have developed specific skills. Unifrog is the place all this can be captured.
