

Careers Newsletter

Studley High School

Welcome to the Studley High School Careers Newsletter, keeping our students and parents up to date with careers news and events. In this edition we are signposting you towards a range of resources that enable pupils to undertake some independent careers research.

It has been lovely to welcome pupils back to school and be able to resume face to face careers meetings.

Please have a look at our Careers page on the school website: <https://studleyhighschool.org.uk/teaching-learning/careers-education/>

It is updated regularly and contains a vast amount of information. For the very latest information follow us on social media:

Mrs R Dixon – Careers & guidance advisor

Year 11

Our Year 11's have made great progress with securing their intended destinations for September. There is such a wide variety on offer to them so we are looking forward to hearing about the next phase of their education.

There is a Careers Google classroom which has links to various careers related websites, potential jobs linked to school subjects and much more.

Year 10

After Easter our Year 10's will begin to have their careers meetings so we can start to get them thinking about their next steps, whether that is college, sixth form or an apprenticeship.

Careers Newsletter

Studley High School

Many pupils are interested in apprenticeships. There are several ways to access information and ways to apply. Here are some links to find more information about apprenticeships:

<https://amazingapprenticeships.com/>

<https://www.gov.uk/apply-apprenticeship>

<https://worcsapprenticeships.org.uk/>

Colleges also offer apprenticeships, and more information can be found on their websites. Pupils can also access apprenticeships via the Unifrog platform.

Careers advice can also be obtained from the National careers service:

<https://nationalcareers.service.gov.uk/>

In March we launched Unifrog with Years 7, 8 and 9. This now means all our pupils have access to the platform.

Parents can create a login so that you can support your child with their research. Please go to www.unifrog.org/code to sign up. The code is **studleyparents**. **This code is only available for the next 2 weeks.**

If you have any questions please get in touch via email or the school office.

What is Unifrog?

- Unifrog is a one-stop-shop where pupils can easily explore their interests, search a careers library, look at post 16 destinations and much more.
- Unifrog will help them to explore their key interests and to define career paths they can take to reach their goals!

Here is a link to the Unifrog parents' guide, which is on the school website:

<https://studleyhighschool.org.uk/teaching-learning/careers-education/>

Studley Careers

At Studley High school we have a broad offer for our careers service. In 'normal' times we offered many different activities. Our annual Post 16 evening with colleges, sixth forms, universities and employers available for pupils and parents from Year 9 to Year 11. This is always well attended and we hope to be able to have the opportunity to put on this evening again in the future. We also hold careers fairs, mock interviews, visits to businesses, colleges and universities and we focus on careers during PD days

All pupils will have had at least one personal careers meeting by the end of Year 11, but careers advice is available to all pupil across the school.
