

Science work Year 5

Week commencing 23rd March 2020

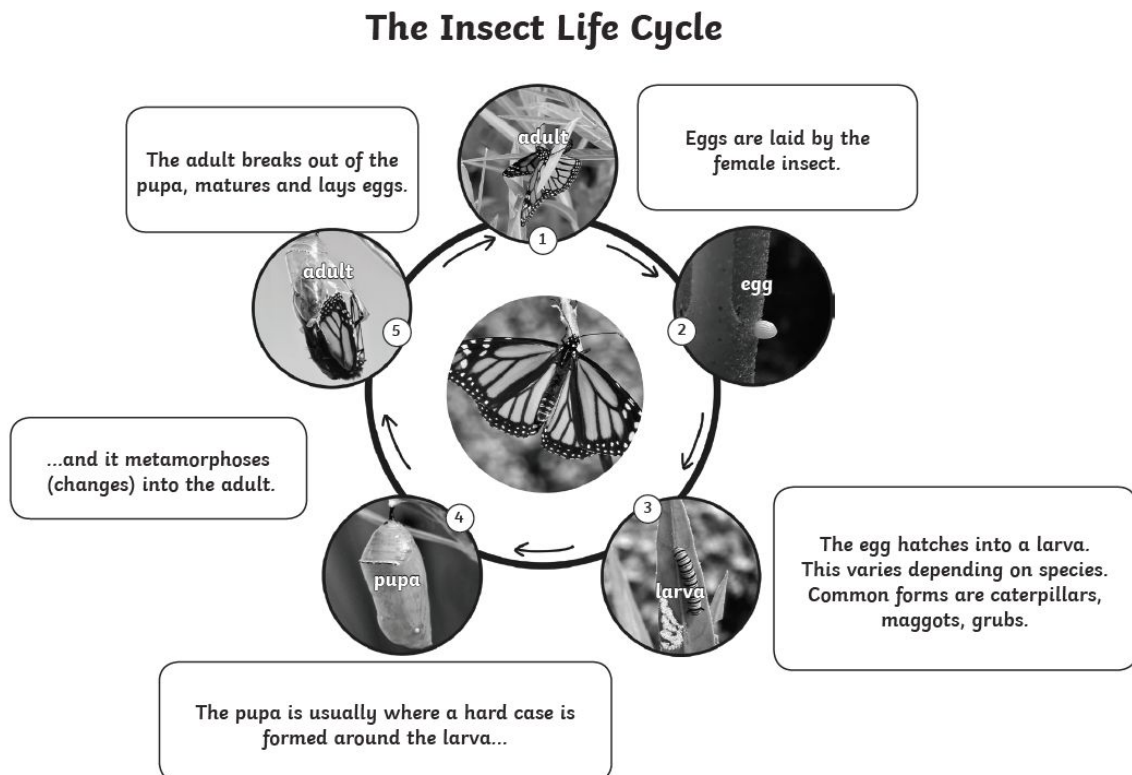

Research a life cycle of an animal (can be an unusual animal) eg Mosquito, Kangaroo

Make a model of the animal's life cycle
(can use junk materials from home)

Write an information leaflet about your animal
(include habitat, diet, appearance, behaviour, stages of life cycle)

There is a leaflet template which can be used.

For example

There are lots of useful website that can be used in your reseach.
