

Edward Peake CofE Middle School  
Art Curriculum Progression

**Curriculum Intent:**

The intention of the Art curriculum at Edward Peake is to produce creative work, exploring their ideas and recording their experiences to become proficient in drawing, painting, sculpture and other art, craft and design. The curriculum has been designed to be aspirational for all pupils, providing support and challenge to meet the needs of learners. Pupils are able to explore periods of art and artists, for them to create and explore using a variety of materials whilst learning new techniques and knowledge. We encourage independent learners by analysing their work to make informed choices and decisions in their artwork. The Art curriculum has been specifically designed to meet the needs of all pupils regardless of their previous experiences or potential barriers to learning. Pupils are exposed to a range of artists from different cultures, backgrounds and ethnicities in order to develop their cultural awareness. We make use of subject specialist teaching across all 4 year groups, with a specialist art room and resources.

Our main aims are to:

- **Live:** Ensure pupils develop skills and personal qualities for lifelong learning so that they can make an active contribution to society and the arts community.
- **Love:** Broaden pupils' horizons by giving them opportunities to explore different materials, skills and artists.
- **Learn:** Develop independent, confident and successful art and crafters and encourage their creative thinking.

There are 3 key concepts which are threaded throughout the Art Curriculum at Edward Peake. These are:

**Personal expression**, being able to discuss and share opinions confidently about their art and the art of others.

**Creative expression**, where students are able to take risks with their own art work and challenge their skills.

**Design and application** to use mediums, media and processes correctly and confidently in their work.

<p><b>Curriculum Impact:</b> Pupils achieve academically, are ready for their next steps in their Art education and have high aspirations for their future. They become confident in talking and discussing art, artists and their opinions (both positive and negative). They should be able to make decisions and be critical thinkers about their work and how to adapt and refine. This should help them develop into independent learners and be confident about sharing and speaking about their work.</p> <p>Live: Ensure pupils develop skills and personal qualities that enable them to confidently talk about and discuss Art. Love: to talk, create and be inspired by Art. Artists and movements. Learn: Develop independent, confident and successful learners who achieve the best possible academic standards, whatever their starting point.</p>
