Edward Peake Church of England Middle School			
Topic: Where in the world?		**Year: 5**	**NC Strand: Locational knowledge**

What should I already know?

- Understand what the difference between a country and a continent is.
- Where the northern and southern hemisphere is.
- Locations of lines such as the Equator and the Tropics.
- Locate places on a world map or in an atlas.

Where in the world? : Big questions

Who is where? I can discover my and others' links with the world.	*Where are we in the world?* I can locate where I am in the world using coordinates.	*Where are we in Europe?* I can locate where I am in Europe.
What interesting places are in the world? We will investigate some interesting places in the world around us.	*Where can I find?* I can find my places of interest locally.	*Me and my world* I can create a map which shows how I fit into the world.
