

**THANK**

**Road Safety**

# What would you do?

It's late, you've been out with friends, and you're now on your way home with them on foot. One of you has a football, and for a bit of fun, suggests kicking the football from one side of the road to the other. The road is pretty busy and no-one can easily be seen in the dark.

# What would you do?

It's the end of the day and there are large crowds of students from your school filling up the pavements. A local primary school has also recently finished, meaning there are even more people around. The roads are busy with cars and buses. You all head to the bus stop. There is already a huge crowd there – and your friends start messing around near the front of the crowd right next to the road. There are young children near you too, one of them your sibling.

# What would you do?

You and your friends regularly ride bicycles to school a couple of times a week, which means you get 15 minutes extra in bed!

You are all confident riders and wear all of the correct safety gear. Some people in the group wear headphones as they ride. There was a lot of rain overnight. Despite this, some of the group start racing. Towards the end of your route, a pedestrian crosses the road in front of the group.

Everyone has the right  
to make safe and healthy  
journeys where they live

**BE BRIGHT...**  
**...BE SEEN**

**#BeBrightBeSeen**

# Reflection

**BE ALERT. BE SAFE.**

Father God,  
Help us to concentrate on our  
work,  
Help us to listen  
and respect each other,  
Help us to apply each month's  
value whenever we can.  
Amen

*'I will instruct you and teach you in the way  
you should go; I will counsel you with my  
loving eye on you'  
Psalm 32:8*
