Still life

- 1) Still life is a painting or drawing of an arrangement of objects. A common object of fruit.
- 2) There are many still famous artists who have created pieces of still life but some of them are Eugene Delacroix, Gustave Courbet and Vincent Van Gogh.
- 3) There are lots of different pieces of still life but some famous pieces like Basket of fruit by Caravaggio, The Basket of Apples by Paul Cezanne and Still life with Skull also by Paul Cezanne.
- 4) My favourite still life art that I have researched is Curtain, Jug and Fruit by Paul Cezanne because it has lots of detail and you can really see what is what.
- 5) If I were to take a photo of a still life arrangement to represent life I would put in hand sanitizer and toilet paper for Covid-19, or a mobile phone to represent technology.

LO Volcanoes

How are volcanoes formed?

Volcanoes are formed when magma from within the Earth's upper mantle works its way to the ~~sun~~ surface. At the surface, it erupts to form lava lava flows and ash deposits. Over time as the volcano continues to ~~ers~~ erupt, it will get bigger and bigger.

What are some key volcanoes around the world?

A key volcano located around the world is located in Hawaii's Volcanoes National Park and is called Kilauea.

Friday 27th March 2020

What is a volcano?

A volcano is an opening on the surface of a planet or moon that allows material warmer than its surrounding ~~to~~ to escape from its interior.

When this material escapes, it causes an eruption.

What does a volcano look like on the inside?

After an eruption, the tip or top of the volcano tends to get blown off, leaving a small depression at the top of it. Layers of ash and lava. The walls of a volcano are usually made up of solidified layers of lava and dust.
