First Holy Communion & Confirmation Sacramental Preparation

Please keep the dates for the monthly Sacramental Preparation sessions in your diary: **Saturday 19th March** /
Saturday 30th April / Saturday 21st May

11-20 March
**British
Science
Week
2022**

On Wednesday, the children enjoyed a day of experiments and got the chance to meet some very creepy crawlies! Thank you so much for your costume efforts and generous donations!

SUPER STARS

Rec: Kacper & Savannah Y1: Muhammad & Antonina
Year 2: Harrison & Lena Year 3: Jessica & Tai
Year 4: Leo & Darren Year 5: Jarvis & Alicia
Year 6: Julia & Alicja

SPORTS NEWS

On Tuesday, Year 5 and 6 took part in an Indoor Athletics competition against 3 other schools from Coventry. They performed brilliantly winning their heat and making it through to the finals. Well done everyone!

After school on Tuesday, 7 children from Year 5 and 6, and 10 children from Year 3 and 4, went to St Christopher's School to play in a netball and football match. For many of them this was their first experience of playing in a competitive match and although both teams lost they played superb and were a credit to our school.

On Thursday, 12 children from Year 4 took part in the county finals of the Speed Stacking. Having previously qualified by being the best school in Coventry West these children competed against 13 other schools from Coventry, Warwickshire and Solihull. All of their hard work and practice paid off as they finished in an incredible 4th place.

Our fabulous Irish dancers recorded a special St Patrick's day performance; please visit the website and take a look! A huge thank you to our dance teacher, Mary!

St Patrick's Day

This Week in YEAR N

We have had great fun being scientists in Nursery this week. We have made Gummy Bears grow bigger, made raisins dance and have made seed bombs to throw around the school grounds.

This Week in YEAR R

Reception this week have been conducting lots of science experiments. In literacy we wrote instructions on how to test how flowers drink. On Wednesday we had a fun day exploring growing, floating, changing and eruptions! On Thursday we met some very different creatures. They were a Salamander, Cockroach and Millipede, the Salamander was our favourite. We also did lots of St Patrick's Day activities. In mathematics we have started to look at 3d shapes and will be continuing this next week. We ended the week on Friday designing ways to keep eggs safe. We dropped our eggs from upstairs to test who had designed the best egg protection. A great week!

This Week in YEAR 1

What a busy week! We loved becoming mad scientists and exploring life on Mars. We learnt all about the planet of Mars and worked to create characters that would be able to survive on Mars. We then worked in small groups to make space rockets that could take us to Mars.

This Week in YEAR 2

As well as publishing our instructions about how to grow a plant and learning to tell the time to the nearest 5 minutes, this week we have enjoyed celebrating Science Day and St Patrick's Day in Year 2. Mr Rolison treated us to a feel of some special animals and we tried some soda bread from Ms McGinn.

This Week in YEAR 3

Happy Science week! Year 3 have had lots of interesting things happening this week. We took part in science experiments and had a workshop all about Carbon Monoxide.

This Week in YEAR 4

This week, year 4 have tried out new techniques to create sculptures from clay. We've also taken part in a special stations of the cross led by Father Michael and enjoyed a visit from many fascinating creatures to celebrate British Science Week.

This Week in YEAR 5

This week Year 5 have enjoyed getting stuck into British Science Week. They have learned about and held some animals, made slime, created electric circuits, tested the solubility of materials and even designed a base camp for Mars!

This Week in YEAR 6

This week we've put ourselves in the shoes of the Samaritan Woman and written diary entries to explore how her life changed after her encounter with Jesus at the well. We loved celebrating British Science Week by dressing as famous/crazy scientists and taking part in a carousel of activities: we loved making slime and meeting the minibeasts (although some of us were a little nervous of the millipede!). We thoroughly enjoyed taking part in a Sportshall Athletics competition and couldn't wait to share the fantastic news that we won our group and are through to the final.

Want to see more updates? Visit your child's 'class blog' on the website - www.allsoulschool.co.uk > Classes > select year group

We will also share important announcements and photographs on the website homepage and Twitter – please take a look! @AllSoulsPrimary

We look forward to seeing you all next week!
