Dear Parents and Carers,

Re: Requests made for childcare provision

If you requested a place for your child in our 'Continued Child Care Provision for Key Workers' or your child has been identified as in need of extra support, confirmation of this place and further details will be shared later this evening by direct email.

As I am sure you understand we have had short notice to put a plan in place and staff our provision following the completion of our google form. I again would like to make it clear that it is **very important that we minimise the number of children in school. This is because we will be looking after the children of NHS workers.** Wherever possible, only send your child into school when absolutely necessary.

I completely understand if parents want to withdraw their request of supervision following the new announcements made by the government this evening.

Thank you for your support.

Yours sincerely,

Simon Brown
Head of School
