

## The Autumn NCS Programme.

Our autumn NCS program is a **one-week** experience that will take place during the **October half-term**. This maybe a shorter experience compared to the summer experience, but rest assured it delivers all the same benefits you would expect from an NCS experience. What’s more, the autumn program is geared specifically in helping towards applying for **university**. With the opportunity to give back to your local community and learn vital independent living skills, universities across England recognise the importance of NCS. Young people stand a **25% better chance** at securing a place at university after completing an NCS program. To top this, the autumn program is completely free! However, places are VERY limited at only **500 places!** and is only reservable on a **first come bases**.

25% better chance at securing a university place

Help your local community with life after Covid 19.

Shape your future career and learn independent living skills

Have a fantastic time and make new friends, all for FREE!

## Autumn Programme overview

Below are some of the Phases and activities you will be getting up to! If you have any questions, then please do email us!

### Phase 1

You will take part in activities and workshops that will develop your teamwork skills. Challenging you to step outside your comfort zone and have fun.

### Phase 2

In this phase you will take part in activities that will help you to understand the communities around you, develop your understanding and help towards your wellbeing.

### Phase 3

In this phase, you will deliver a social action project. Volunteering your time to help local communities. This can take many forms, fundraising, developing a public space, helping out a local organisation, raising awareness and helping those who need it the most.

### Phase 4

This is a celebration event which can be hosted online or according to current government guidelines. We want to celebrate all your achievements and everything you have accomplished.
