NHS Virtual Work Experience Programme

A recent discovery report by Health Education England concluded that virtual work experience programmes are a fantastic adjunct to in-person experience. Many universities are also accepting this as alternatives to in person experience in light of the pandemic too. The NHS Live Virtual Work Experience Programme is the largest national healthcare careers programme in the UK. It has taught over 30,000 students so far.

This programme is tailored to students in 10-13 or S3-S6 year groups and interested in the following careers:

- Nursing
- Midwifery
- Paramedicine
- Physiotherapy
- Occupational Therapy
- Dietetics
- Radiography
- Prosthetics
- Orthotics
- Speech and Language Therapy
- Pharmacy

Applications for the NHS Virtual Work Experience programme are now open, and they will be open throughout this academic year, with the next session taking place on the 6th February.

During the work experience day, students will follow 2 patients from their initial presentation to recovery. Students will observe the healthcare professionals as they interact with the patients and each other. Students will have an opportunity to ask questions and gain knowledge through teaching. This will help students to make an informed career decision as well as learn about how healthcare professionals work together as part of a multidisciplinary team. Each work experience day is completely different. Students will be able to build on their knowledge of NHS careers as they see different patient cases and healthcare professionals work in a variety of settings, such as hospital and community.

Students will also receive certificates as evidence of having participated in the work experience programme. Those that complete the entire 6-month programme will be awarded with Highly Commended References too. Students can register individually through the website link below. Places are £10 a day to cover administrative costs and run the tech on the day.

Please register for the programme here: <https://alliedhealthmentor.org/nhs-healthcare-careers-virtual-work-experience/>
