TA Position at Braunstone Frith Primary School

We have been asked by the Head Teacher at Braunstone Frith Primary School if we might have any current Y13 students who would be interested in being a TA next year.

13 June 2022

They have had another of our students this year who has been absolutely brilliant but is off to university next year. If you are interested in applying – there are currently six vacancies available - it would be for a one year fixed term so ideal for those of you looking to work for a year before going to university. Please call 01162872487 for more info.

Clinical Research Conference

Medic Mentor is hosting a conference on Clinical Research being held on Sunday 26th June, 10am - 6pm. Students can register using the link below. I would greatly appreciate it if you shared this with them: <https://airtable.com/shr5cezxGuJuSQv3X>

The Research Engagement Conference offers students the rare and exciting opportunity to get involved with clinical research - before they even get into University! That's a fantastic addition to their UCAS application and CV.

Sponsored by the Society for Endocrinology, all aspiring Doctors, Dentists, Vets, and Professors are welcome to attend. The spotlight is on Diabetes Research. Chief Mentors will focus on diabetes to showcase the advances in medical technology and highlight how important it is for patients to have a voice in health policy, provision, and care.

During the conference, students will:

- Explore a research area of interest (related to diabetes care)
- Work as a team to prepare and deliver a national conference poster presentation to a panel of judges.

We will award national prizes for:

- Best Poster Presentation
- Best Poster
- Most Innovative Student Group

Attendees will be supported throughout the conference by Medic Mentor scholars and Chief Mentors.

Students will need to register and select their preferred area of clinical research out of:

- Technology
- Treatment
- Prevention
- Cure
- Clinical Psychology
- Physical Activity
- Self-Management

Please bear in mind that students must have a parent/guardian with them for the duration of the conferences. Anyone seen without a parent/guardian or with their cameras turned off will be removed from the conference.

LEICESTER YOUTH FORUM

The Leicester Youth Forum (LYF) aims to **improve the quality of care and patient experience** for children, young people and their families who access services within the Trust. It is made up of **young people aged 13-24 years of age** who wish to **actively participate** in the **designing and developing of hospital services** in their own community. Some of our members are patients with long-term health conditions and others just have a keen interest in healthcare.

As a member of LYF you will..

- Be required to attend a meeting on the last Thursday of every month
- Meet other young people who also wish to improve hospital services
- Gain a greater understanding of how the NHS works
- Meet a wide range of professionals from the Trust and learn more about what they do
- Use your voice to influence positive changes throughout the hospital
- Have opportunities to take part in lots of different events and activities
- Gain new skills that you can add to your CV & university applications
- Meet our youth worker who offers support & guidance to young people

WE MEET EVERY LAST THURSDAY OF THE MONTH, FACE TO FACE AWAY FROM THE HOSPITAL, FROM 6-8PM WITH FREE PIZZA
