

Homework Overview

Year 11

Subject:	Frequency:	Type:	Suggested amount of time to be spent on homework:
Maths	Weekly	<p>Maths homework will typically be a mix of either SparxMaths work, or exam paper practice.</p> <p>This homework is set on the same day each week and due at the same time the following week.</p> <p>For SparxMaths, students complete the homework on their iPad, but could do it on another device. SparxMaths accounts use a student's Google password for access, which is the same one they use to access their email on the school website. Exam papers will be either printed for them on paper or be electronic papers that they complete in their maths book.</p> <p>SparxMaths homework topics will mostly be selected by the teacher based on prior knowledge gaps highlighted in tests. Students are expected to achieve 100% on the homework each week, and SparxMaths will adjust the difficulty level of questions to make this attainable for the vast majority of students. If students can't do a particular question then they should watch the video and have at least three tries at a question before moving on.</p> <p>If the school has your email address you should get an email each week telling you how much of the homework has been completed. The 'parent portal' link in that email can always be used to access up to date details on how much of the homework has been completed for that week.</p>	60-90 minutes per week
GCSE Physical Education	Weekly practical	Students must be playing one sport competitively for a team or club. Students should also be attending at least one, ideally two, other extra-curricular clubs to play recreationally and improve their scores in their second and third sport.	3-4 hours
	Weekly theory	<p>Students should be spending at least 45-60 minutes each week on one of our online platforms - The Everlearner or Seneca Learning - to review their understanding of work that has been covered in class.</p> <p>Students will be set at least one piece of written home learning in each of the four weeks of study - this will equate to around two pieces per half-term. Set home learning will not always be marked by the teacher but will always be integral to either securing understanding of a prior learned topic or could inform upcoming areas of study.</p>	60-90 minutes per week
Hospitality		<p>Students will need to organize themselves with ingredients for set practicals following in class demonstrations. Students can research varieties of flavours, or how they can personalise the dishes.</p> <p>Students are to complete their "Practical Review Journal" after each practical they complete in class.</p> <p>It is expected that students do some form of cooking at home to develop their practical skills. Dishes should repeat skills used in class where possible.</p> <p>Exam questions & knowledge retrieval.</p>	<p>Practical cooking - 2 hours a week during Controlled assessment period (Oct - Feb)</p> <p>Revision - one hour a week.</p>
Art & Textiles	Ongoing	Using their time effectively to ensure that teacher assessment is responded to by the set deadlines. The expectations of the course is that students should spend a minimum of 3 hour per fortnight supporting the class tasks delivered in lessons.	
Engineering	Weekly	Understanding drawing symbols.	
D & T	Weekly	Working independently on their NEA work both at home and school. Researching materials, buying components and materials, developing design ideas. Product testing and analysis off-site.	
Construction	Weekly	Use the Blended learning and knowledge organisers.	
MFL	Weekly	There will be vocabulary and grammar learning which is tested each week. Students will be expected to consolidate their learning in class by practising a set of vocabulary or key sentences at home. Students will be able to practice using information from their book or Show my homework.	30 minutes/an hour per week
	Fortnightly/3 weekly	<p>Students will be expected to extend their knowledge with vocab and grammar by using Vocab express and quizlet, they are programmes which enable students to learn and practice vocabulary. Teacher will set up home work from these</p> <p>Student will have reading and listening homework to do at least once a term and they will have to mark it themselves. Students will feedback their result as well as WWW and EBI</p> <p>Students will have to revise at home for their assessments at the end of each term.</p>	

TO LEARN TO ACHIEVE

Subject:	Frequency:	Type:	Suggested amount of time to be spent on homework:
Dance	Ongoing	Students will be working on their dance practicals - will have to give up rehearsals for an hour a week to get them completed and improved. Will also need to plan what will be done in rehearsals in preparation.	1 - 2 hours.
		Will also have exam questions, programme notes, research tasks for choreography and revision tasks - more of these when not working towards practicals that require extra rehearsals.	30minutes
Media		Homework will be largely preparation for mini mocks that we do frequently throughout the year. In addition, the practical elements of the course will occasionally require them to take original photography for production tasks.	1 hour
Drama		KS4 Drama - students will be set a weekly practical/rehearsal homework or written/ research task relating to the theoretical aspects of the course.	1 hour
Geography	Weekly	Tasks will be a mixture of exam questions, revision, knowledge questions, Seneca Learning work and other exam preparation activities deemed appropriate by their teacher. All homework will be aimed at supporting their final exam grade.	30-60 minutes per week
History	Weekly	Tasks will be a mixture of exam questions, revision, knowledge questions, Seneca Learning work and other exam preparation activities deemed appropriate by their teacher. All homework will be aimed at supporting their final exam grade.
