

Remote Learning Survey 2021

Following the National lockdown in January 2021, we asked parents to tell us their views about their experience of remote learning

We use surveys to find out what we are doing well as a school and what we can do in the future to improve.

Thank you for taking the time to respond to the survey. In total, we had 75 responses.

What did we do well?

- You felt that we communicated well. We supported you as a family without harassing you and you appreciated the updates about the current situation via ParentMail
- You appreciated that we understood your individual circumstances and did not pressure you to log onto Google Classroom at a certain time
- There was plenty of work set for children to complete and a wide variety of activities were included
- You felt that feedback from the teachers helped motivate children
- You liked to see examples of children's work uploaded to the website
- You felt that we dealt with any issues well

What could we do to improve?

- You would like staff to have more face to face interaction with the children via Google Classroom
- You felt that your children weren't always challenged with the tasks that were set
- You would like the option of more work being able to be 'turned in' on Google Classroom

For some families, uploading all of the work on a Sunday was very helpful as it meant you could get organised for the week and complete tasks at a time that was convenient for you. For others, this was overwhelming and you would have preferred tasks to be uploaded daily. In order to make things work for everyone, should we need to return to home learning, we will upload work on a Sunday but try to ensure it is clearly labelled and organised to help those who prefer daily tasks.

We all hope that this was the last time that school is closed to the majority of pupils. However, if we are required to teach remotely again, we will work hard to ensure the children are provided with quality work and feedback, we continue to have strong communication with you and increase our face to face interaction with the children.
